FOREWORD

The publishing of this directory has been prompted by the need to identify industrial products and services available in Newfoundland and Labrador to the offshore oil and gas industry. In answering that need, we feel we have as well produced a directory that meets the general requirements of all industry in or outside this Province.

This edition contains 100% more companies than the original directory of 1979 and now includes 323 companies and 175 product/services.

SPECIAL CODES

All companies reporting 51% or more Newfoundland ownership have been prefixed by an asterisk (*).

NOTE: THIS DESIGNATION OF OWNERSHIP IS BASED ON INFORMATION PROVIDED BY INDIVIDUAL COMPANIES AND DOES NOT NECESSARILY REFLECT ITS STATUS WITH RESPECT TO CLAUSE 124 OF THE PETROLEUM REGULATIONS.

A code of A, M, or C has been assigned to each company product/service in order to designate Agent, Manufacturer or Consultant.

Any inquiries should be addressed to:

OFFSHORE BUSINESS DEVELOPMENT

OIL AND GAS REGULATIONS

"PREFERENCE OF LOCAL GOODS AND SERVICES"

124 (1) It is deemed to be a term of every permit or lease that a permittee or lessee shall give preference in his hiring practices to qualified persons normally resident in the province and shall, subject to subsection (2) and (3), purchase services provided from within the province and goods manufactured in, or where not so manufactured, goods provided from within the province where competitive in terms of fair market price quality and delivery.

(2) It is deemed to be a term of every permit and lease that the permittee or lessee shall, where competitive in terms of fair market price, quality and delivery give preference in relation to the provision of goods and services to firms or organizations owned or controlled by persons normally resident in the province and to companies incorporated in the province at least 51% of the shares of which are held and beneficially owned by persons normally resident in the province.

(3) Where no firm, organization or company meeting of the criteria set out in subsection (2) is competitive in terms of fair market price, quality and delivery, the permittee or lessee shall, where competitive in terms of fair market price, quality, give preference to firms, organizations or companies whose business of providing goods and services to the permittee or lessee in relation to petroleum activities in the province or in the permit or lease area is conducted

and managed from a permanent establishment in the province and the majority of whose employees engaged in such petroleum activities are persons normally resident in the province.

(4) Notwithstanding subsections (1), (2) and (3), a permittee or lessee shall be solely and totally responsible for the selection of labour, goods and services in relation to his exploration and production program.

"125 It is deemed to be a term of every permit and lease that the permittee or lessee shall ensure:

- (1) that qualified firms, organizations or companies meeting the criteria set down in section 124 are included on all lists of bidders, suppliers or contractors maintained by the permittee or lessee in respect of petroleum activities in the province or in the permit or lease area, and
- (2) that all such firms, organizations or companies are given adequate notice of goods and services, required by the permittee or lessee or for the use in the province or in the permit or lease area, and
- (3) that all such firms, organizations or companies are given full and fair opportunity to bid or to offer to provide such goods and services."

"126 (1) It is deemed to be a term of every permit or lease that every permittee or lessee shall require his contractors and main sub-contractors to provide a similar preference as is set out in section 124 and to meet the requirements set

down in section 125.

(2) Every permittee or lessee shall be responsible for ensuring that his contractors and main sub-contractors meet the requirements set down in sub-section (1)."
